

# TRANSPORTATION REQUEST

Students are required to ride school transportation to and from school activities/sports. The requirement covers the school's liability for these students and also fulfills their obligations to the group/team they represent.

Common sense and legalities allow exceptions such as away trips where parents/family will be staying in town overnight to visit relatives, etc.

This request should not be made for students who are returning home with their parents for the reason of shopping or eating out. This request should be used when an inconvenience exists.

**Approval will only be considered when the transporting member is the parent/legal guardian.**
